

Muhammad Mussab

Full-Stack Developer | React, Next.js, Vue.js, Laravel

Self-taught full-stack web developer with 5+ years of experience building modern, scalable web applications. Specialized in React (Next.js), Vue.js, Inertia.js, and Laravel, with a strong focus on clean UI, performance, and backend logic. Also experienced in mobile development using React Native on an intermediate level. Skilled in both frontend and backend, UI/UX design, and integrating AI and third-party APIs. Continuously learning by building real-world projects. Open to freelance or full-time roles.

WORK EXPERIENCE

Full Stack Web Developer (On-site & Remote)

2021 – Present

KarimApps, Sadiqabad, Pakistan

- Started as a junior web developer, contributing to multiple full-stack projects using React, React Native, Laravel, InertiaJS, and Next.js.
- Promoted to team lead after demonstrating strong technical and communication skills.
- Led a team of developers in the last 2–3 years, managing tasks, conducting code reviews, and ensuring timely delivery.
- Played a key role in transitioning projects from on-site to remote, maintaining productivity and collaboration.
- Delivered performant and scalable solutions while working closely with cross-functional teams.

Full-Stack Web Developer (Part-Time, Remote)

2023 – 2024

MyPromax, Geneva, Switzerland (via KarimApp)

- Worked as a subcontracted developer through KarimApps on multiple projects.
- Developed a sports scoring app and a film-streaming platform similar to Netflix.
- Built user-friendly interfaces using React, Vue.js, InertiaJS and TailwindCSS.
- Integrated third-party services including Stripe (payments) and Firebase (auth, database, notifications).
- Collaborated with the backend team to implement APIs and optimize Laravel-based architecture.

UI/UX Designer & Front-End Developer (Part-Time, Remote)

2024 – 2025

Nextwys, Bahawalpur, Pakistan

- Designed intuitive and engaging user interfaces in Figma and Adobe XD.
- Converted UI designs into responsive front-ends using React.js, Vue.js, and TailwindCSS.
- Improved user interaction and visual consistency across various client products.
