Summary

Senior Software Developer | Full-Stack Web, Mobile & Desktop Applications

I am a Senior Software Developer with expertise in building scalable and high-performance applications across web, mobile, and desktop platforms. With over 5 years of experience, I specialize in React, Vue.js, Laravel, and React Native, crafting seamless digital experiences that enhance user engagement and drive business growth.

Throughout my career, I have successfully designed and developed applications for industries like e-commerce, education, and healthcare, achieving key milestones such as:

✓ 25% increase in user retention

✓ 40% reduction in loading times

✓ 15% improvement in conversion rates

I thrive in collaborative environments, working closely with clients and teams to deliver high-quality, efficient, and innovative solutions. Passionate about continuous learning and staying ahead of technology trends, I am dedicated to building modern, user-centric applications that solve real-world problems.

Let's connect and build something amazing together!
